

## Essential Digital Skills Level 1

Study Mode: Part Time | Course Level: 1

### Is this course right for me?

The Essential Digital Skills courses have been setup in conjunction with the government to cover the required points of our modern digital life. In this Level 1 course you will be shown how to use and develop the digital skills that are considered to be vital for both business and personal use on a day to day basis. You will be working in a safe environment with trained professionals to help guide you through these skills in a step by step process that gives you time to learn and practice and above all develop your confidence when using all forms of digital device. This course is aimed at students who have some understanding of basic computing practices but that need to develop more established skills either professional or personal reasons.

Also, if you earn less than £30,000 per year and aged 19 or over, you could study this course for FREE! Take advantage of the new funding and #DoMore with your future.
