

A Level Sociology

Study Mode: Full Time | Course Level: 3

Is this course right for me?

It is only yesterday that mankind was living in the caves, and the day before when we were swinging from branch to branch with the other creatures. Yet, in what is really the blink of an eye, we have developed into a complex society with a wide number of problems and opportunities to live with. It's those factors which affect how our species, and the tribes and family groups within it, works on a day to day basis. Over a two year period you'll cover a spectrum of topics which, between them, will help you make sense of the society we live in and understand the culture and identity issues which affect us all.

Studying sociology offers insights into social and cultural issues. It helps you develop a multi-perspective and critical approach to understanding issues around culture, identity, religion, crime, childhood and social power. More than once during the course you're bound to ask yourself the question, "why have we developed like this. Poverty, ignorance, crime, injustice ... shouldn't we have left them in the Stone Age?"

If this sounds interesting to you, then you'll love sociology!

Please note - when applying for any A level on our website, this submits your application for the full A level programme. You only need to apply for one subject - your other subject choices will be discussed at interview.

Entry Requirements

To access this course you are required to have:

- Five or more GCSEs at Grade 4 or above including English and maths
- The required QoE score

What will I learn?

During this course you will study:
