

Plumbing C&G Level 2 Diploma

Study Mode: Full Time

Is this course right for me?

Are you passionate about construction or interested in working in the construction industry?

Are you keen to learn more about how you could earn a living working in the building services industry?

Do you not currently work in the building services industry but have a desire to become a fully qualified plumber?

Have you got previous work experience or completed a Level 1 plumbing or building services qualification?

If you have answered yes to these four questions then this is the course for you!

This course is perfect for anyone who has aspirations of becoming a plumber – whether you have recently left school or want to make a career change this course will prepare you to work in the industry and qualify you to work as a plumbers mate within this industry.

This is a one year course which can be studied full-time or part-time.

Also, if you earn less than £32,000 per year and aged 19 or over, you could study this course for FREE!

Entry Requirements

For external applicants:

To access this course, you are required to:

- Level 1 plumbing qualification
- GCSE maths and English at grade C/4 or above
- You will be expected to maintain good attendance and punctuality, as well as show commitment, a positive attitude to learning, and determination to achieve the qualification.

Applications from adults without the necessary qualification, but with relevant industry/work experience, will be considered on an individual basis.

For internal progression learners (already studying with us):

Learners must be able to demonstrate that they:

- Have successfully completed a relevant course that naturally progresses onto this programme, achieving a good standard
- Have improved their English and maths grades since enrolment
- Have maintained good attendance and punctuality
- Show a consistently positive attitude to learning

What will I learn?

During this course you will study the following modules:

- Plumbing principles
- Cold and hot water systems
- Central heating
- Health and safety

What skills will I gain?

By studying this course you will:

- Develop your understanding of basic plumbing, electrical and refrigeration systems
- Learn the working principles
- Develop an appreciation for the range of knowledge and skills required to meet industry standards
- Develop your confidence in dealing with various practical tasks and theory applications
- Improve your skills
- Gain valuable team working and communication skills by taking part in group activities

How will I be assessed?

You'll be assessed on your practical skills and the knowledge you gain, by completing practical tasks and theory online multiple choice tests.

What can I do next?

The skills you will learn from this course will enable you to progress to:

- Level 3 Diploma in Plumbing
- A plumbing apprenticeship
- Gain work as a plumber's mate or improver
