

Carpentry C&G Level 2 Diploma

Study Mode: Full Time

Is this course right for me?

Do you want to continue on your journey to become a carpenter and joiner?

Have you completed a Level 1 carpentry and joinery course?

If so this course is for you!

The Level 2 Diploma in Carpentry and Joinery is designed for students who want to be fully qualified in carpentry and joinery within the construction industry. It covers topics related to quantities and communications and construction technology and will provide you with the necessary practical skills and knowledge to progress to a Level 3 Diploma and possible employment.

Construction Diplomas are nationally recognized craft qualifications and are accepted in the construction industry. Craft qualifications are in units, which can be studied in any sequence. These qualifications are required for the Construction Skills Certification Scheme (CSCS).

Also, if you earn less than £32,000 per year and aged 19 or over, you could study this course for FREE!

Entry Requirements

For external applicants:

To access this course, you are required to:

- Level 1 Diploma in Carpentry & Joinery
- You will be expected to maintain good attendance and punctuality, as well as show commitment, a positive attitude to learning, and determination to achieve the qualification.

Applications from adults without the necessary qualifications, but with relevant industry/work experience, will be considered on an individual basis.

For internal progression learners (already studying with us):

Learners must be able to demonstrate that they:

- Have successfully completed a relevant course that naturally progresses onto this programme, achieving a good standard
- Have improved their English and maths grades since enrolment
- Have maintained good attendance and punctuality
- Show a consistently positive attitude to learning

What will I learn?

During this course you will study the following modules:

- Maintenance to non-structural work
- Understanding quantities and and communication with others
- Understanding construction technology
- First fix operations
- Second fix operations
- Structural carcassing operations

What skills will I gain?

By studying this course you will:

- Learn about carpentry and joinery techniques in practical and theory sessions
- Find out about health and safety on construction sites and how important it is to work effectively with others
- Learn about various techniques and carpentry and joinery skills
- Develop your communication and team working skills
- Improve your numeracy and literacy skills to prepare you for a life in construction

How will I be assessed?

Your progress will be continually assessed and you will be provided with detailed feedback in order to help you to develop your skills. Your progress will be evaluated through a combination of practical assessments, job related multiple choice assessments at the end of each unit and external tests that are on-line computer based examinations To gain the diploma you must be successful in achieving all units and passing the synoptic practical test.

What can I do next?

The skills you will learn from this course will enable you to progress to:

- Level 3 Diploma in Carpentry and Joinery
- Carpentry Apprenticeship
