

Carpentry C&G Level 3 Diploma

Study Mode: Full Time

Is this course right for me?

Do you want to continue on your journey to become a carpenter and joiner? Have you completed a Level 2 carpentry and joinery course? If so this course is for you!

The Level 3 Diploma in Carpentry and Joinery is designed for students who want to be fully qualified in carpentry and joinery within the construction industry. It covers topics related to quantities and communications and construction technology and will provide you with the necessary practical skills and knowledge to progress to a Level 3 Diploma and possible employment.

Construction Diplomas are nationally recognized craft qualifications and are accepted in the construction industry. Craft qualifications are in units, which can be studied in any sequence. These qualifications are required for the Construction Skills Certification Scheme (CSCS).

Entry Requirements

To access this course you are required to have:

- Level 2 Diploma in Carpentry & Joinery

Applications from adults without the necessary qualifications, but with relevant industry/work experience, will be considered on an individual basis.

What will I learn?

During this course you will learn:

- Health, Safety and welfare in construction
- Principles of organising, planning and pricing construction work
- First and second fix
- English and maths (if required)

What skills will I gain?

By studying this course you will:

- Understand aspects of management
- First fix flooring, roofing and stairs
- Second fix Operations, Double doors and mouldings
- Set up and use fixed and transportable machinery
- Understand health and safety and how it is applied in the construction industry
- Improve your Maths and English skills

How will I be assessed?

Your progress will be continually assessed and you will be provided with detailed feedback in order to help you to develop your skills. Your progress will be evaluated through a combination of practical assessments, job related multiple choice assessments at the end of each unit and external tests that are on-line computer based examinations To gain the diploma you must be successful in achieving all units and passing the synoptic practical test.

What can I do next?

With a Level 3 Diploma in Site Carpentry, you can look for employment, either as an apprentice or a full-time position. If you wanted to progress your learning, you could apply for a Level 4 HNC in Construction and the Built Environment.
