Employer Feedback

“

We have had fantastic support from the college and now have flexible and highly skilled employees capable of doing a range of tasks. Three of our Apprentices have progressed within the company. The Apprenticeship scheme has allowed us to add a new vitality to the work force, and some of the older members of staff have even said they have learnt a thing or two off our Apprentices!

Keith Chadwick, Managing Director, Radshape

”

Employer Feedback

“

Wolverhampton College has been a great source for apprentice recruitment as they have knowledge of the local area and full time work ready candidates. It is refreshing to work with a provider who works to the employers needs rather than their own agenda.

Abdul Mozzandar Apprenticeship Manager KIER Partnership Homes Ltd

”
